

Appendix 6 – Lynx Habitat Implementation Checklist

For use on any proposal conducted within Lynx Range on DNR-managed lands. The following report form should be submitted to the Management Forester at sale or contract handoff for any proposal that occurs within areas identified in the Lynx Plan.

1) Name of proposal: _____

2) Location: _____ (Legal)

3) LAU Name/Number(s): _____

4) Type of Activity: Timber Sale, Silvicultural Activity, and/or Road Construction (Circle One)

5) Number of Units/Size (acres): _____

Fill in the Following only if proposal is a Timber Sale or Silvicultural Activity:

6) Type of harvest or silvicultural activity: _____

7) Reforestation: (Natural/Artificial--describe) _____

8) Identify the number of acres that are even-aged vs the number of acres with 180+ trees per acre remaining following harvest: _____ Even-aged Acres (Clearcut, Shelterwood, Seed Tree)

_____ 180+ trees per acre remaining after logging

9) Will a timing restriction be applied (yes/no)? _____

10) Effect of Harvest or Silvicultural Activity on forest structure and lynx habitat: how will existing stand(s) be altered? Show forage, denning and travel corridors on an attached prospectus map: _____

Fill in the Following for any type of activity:

11) Was a departure made from the lynx plan? _____ (Yes/No)

12) Summarize how the lynx plan was used in development of the proposal, including why departures were necessary, if applicable: _____

Fill in the Following for Roads:

13) Miles or Stations of new construction: _____ (Miles/Stations)

14) Miles or Stations of reconstruction: _____ (Miles/Stations)

15) Miles or Stations of abandonment: _____ (Miles/Stations)

16) Miles of Active road: _____ Miles of Inactive road: _____

17) Does the proposed road have road closures? _____ (Yes/No) Road Number(s): _____

18) Summarize how was lynx plan guidance applied to design of new road:
